

Glass panic device - top latching glass mount
(used with exterior pull types: A, B, D, F, G, H, J ,JS, L, LS, X, Z)

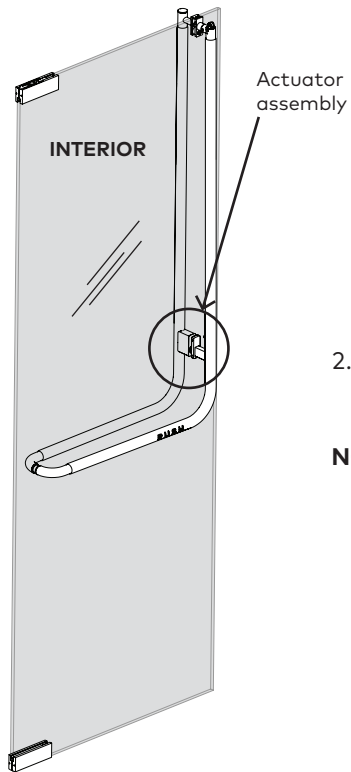

Installation instructions

10-2020

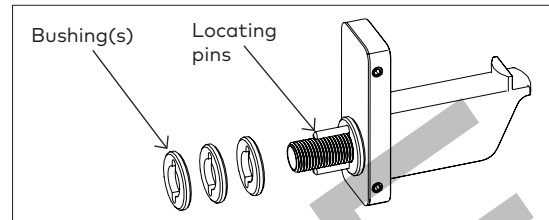

2.2 Mount exterior pull components - actuator housing

Fig 3

**NOTE: PANIC DEVICE SHOULD BE MOUNTED TO DOOR IN A HORIZONTAL POSITION.
LAY GLASS PANEL FLAT ON SAW HORSES AND MOUNT THE FOLLOWING
EXTERIOR PULL COMPONENTS FIRST. EXTERIOR SIDE SHOULD FACE UP.**

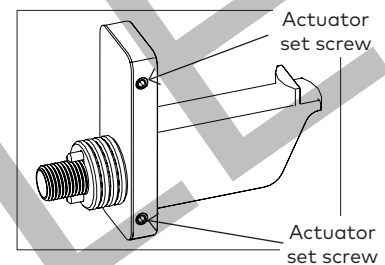

Pull Options	
Door side	Pull type
Interior	D
Exterior	D (shown)

2.2.1 Slide the actuator bushing(s) onto the mounting plate locating pins.

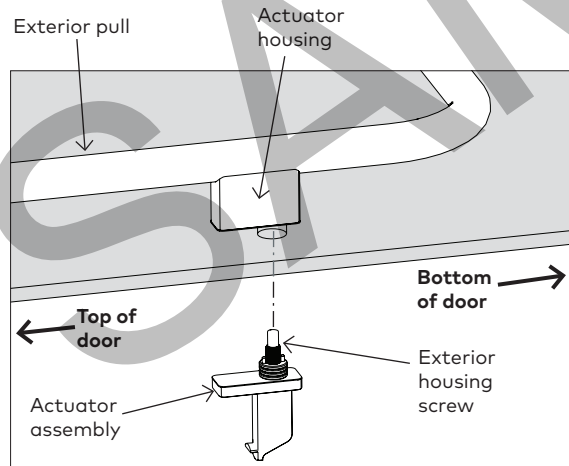

NOTE: Depending upon glass thickness, add appropriate quantity of bushings.

Glass width	No. of bushings
3/8" - 7/16"	3
1/2" - 9/16"	4
5/8" - 11/16"	5
3/4" - 13/16"	6

Tools required

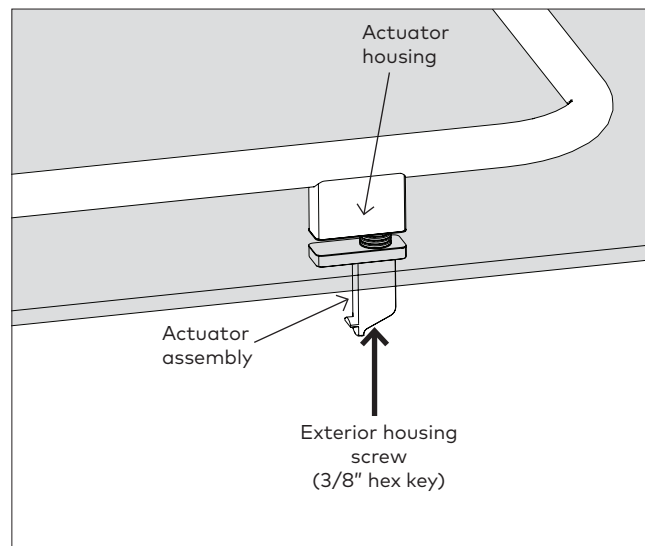

Exterior housing screw	3/8" hex key
------------------------	--------------

2.2.2 Place exterior pull against glass and align with hole in glass.

2.2.3 Slide exterior housing screw through hole in actuator assembly.

- Orient actuator assembly as shown above.

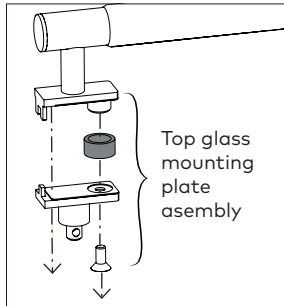

2.2.4 Secure actuator assembly (through glass) to actuator housing by tightening exterior housing screw.

- Exterior housing screw can be accessed through end of actuator assembly.
- Use 3/8" hex key.

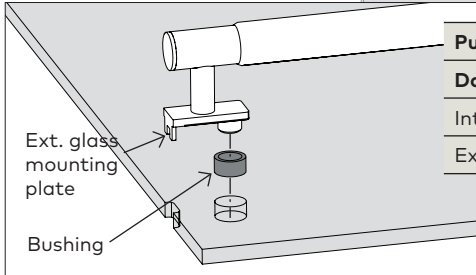

2.3 Mount exterior/interior pull components - top standoff

Fig 4

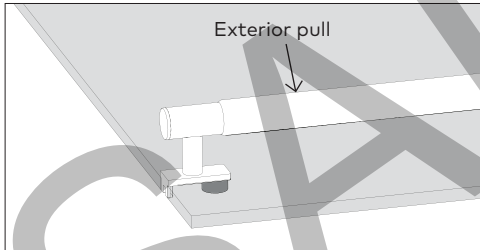

Back-to-back application

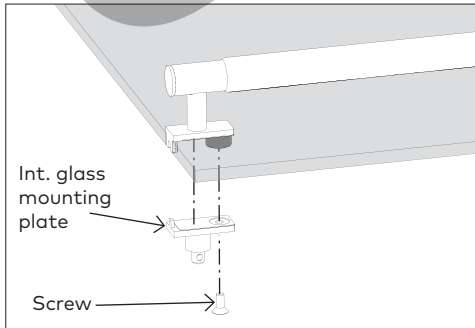

2.3.1 Disassemble top glass mounting plate assembly.

2.3.2 Place bushing onto exterior glass mounting plate.

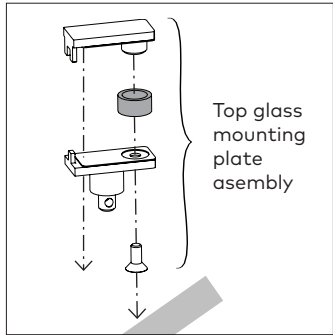

2.3.3 Place exterior pull against glass.

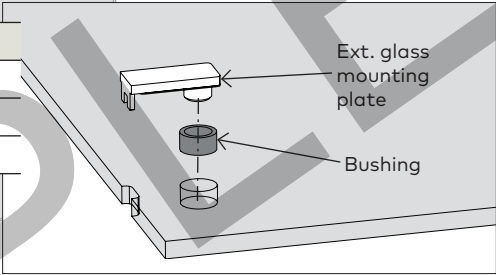

2.3.4 Secure interior glass mounting plate assembly (through glass) to exterior pull with included 5/16-18 x 3/4" screw.

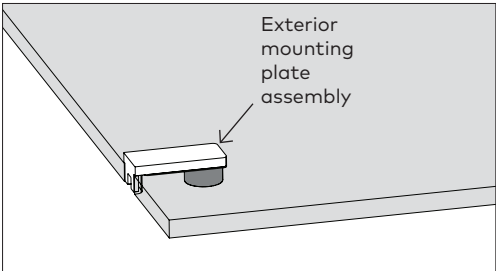

Single-sided application

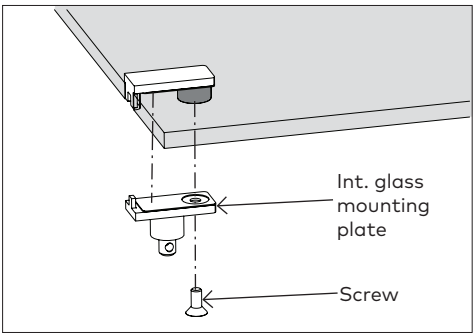

2.3.1 Disassemble top glass mounting plate assembly.

2.3.2 Place bushing onto exterior glass mounting plate.

2.3.3 Place exterior mounting plate assembly against glass.

2.3.4 Secure interior glass mounting plate assembly (through glass) to exterior mounting plate assembly with included 5/16-18 x 3/4" screw.

Pull Options		
Door side	Pull type	
Interior	D	D
Exterior	D (shown)	Z-none
